in Chicago in June. Record of 100. More took part in the various events of the meeting. For the first time in the history of the handicap it was won with a perfect score. Riley Thompson, one of the best amamarksmen of the United States, made a clean record of 100 straight. His closest competitor was Harvey McMurchey, who made 99 hits out of a possible 100. This was the first time that the handicap was ever lost on so excellent a score. Only once before has first nonor reached even as high as the 99 which was second honor in this shoot. More than 127,000 targets were shot at

trap-shooting events throuhgout the United States are conducted under the rules of the Interstate Association. This was organized a number of years ago, and under its activities nearly every 1909 many former records were shattered, and the year marked a higher order of marksmanship than was ever before displayed. But the successes of 1909 have been eclipsed by those of the present year. Even the women have been displaying unusual skill in the art of shooting, and Mrs. A. Topperwein of San Antonio, Tex., hit 94 targets out of a possible 100.

In the shoot held at Betterton, Md., world's record |

a miss, the previous record having been be different. They could not shoot nearly a miss, the previous record having been be different above the daigua, N. Y., where he will be the guest of Mrs. Frederick F. Thompson. straight. Edward E. Hargest, a twelve-year-old boy of Baltimore, Md., is thought to hold the record for a child of his age. In a recent contest he hit 87 out of 100 at one time and 43 out of 50 at another time. The results of trap shooting with clay pigeons in the United English have been led to adopt the clay target, and the sport is growing as popu-lar on the other side as it is in the

In the United States there are two systems of awarding prizes in target shoot- these small arms have brought with them ing. One system is known as the jack an accuracy of aim heretofore thought rabbit and the other as the money back. Under the former the entrants are paid tending that it does not pay them well arms, and it is probable that the day is enough for their skill. But in spite of one of the things of the past in cavalry some disgatisfaction with the prize allotting systems in vogue there never have been so many trap shooters as there are today, nor have the records of the rank and file, as well as those of the prize winners, been as high as they are now. This shows conclusively that expert marksmanship is answering to the meth-

shooters in case of war. The association

The eleenth annual tournament of advocates a program which includes the dents. Of these only 3,239 receive outdoor shooting practice and 9,728 gallery practice. In addition to these public institutions there are twenty-eight private military schools with an enrollment of handling it as a sharpshooter need to be in case of war. The officials of the rifle association well
